

M11: Individual Assignment: PT 2 – SLIDES

Unauthorized Disclosures

Instructions for Slide Formatting and Completing this Assignment

- Slides are a TEMPLATE
- Do **NOT** alter formatting of the slides
- Do not change font size | Do not change font type (Calibri) | Do not change line spacing | Use the symbol on the slide template as the bullet; no numbers as bullets
- Do not add slides
- Introduction and Conclusion are PARAGRAPHS | 20 pt font
- Individual Case slides are only bullets
 - All bullets will be Sentence case, meaning only the first word is capitalized
 - Do not put periods after bullets of information
 - No biographical information, such as “born in”, “raised in”, “college in” ...
 - All bullets will have information from one of your sources, so all bullets will have a superscript number citation and a footnote
- Shortened footnotes only in the Notes Page of each slide
- Bibliography slide: all entries should fit on one slide

This is not an exercise in slide creativity. You are simply presenting an information report as a briefing, rather than as a document.

Instructions for QUAD CHART slides

- The structure is called a Quad Chart. You will put your information into the quadrants under the titles I have provided. I have to use these at work for senior leaders.
- Use full name of individual in the title of the slide – one slide per individual
- Content in Calibri font and 20 pt size
- Do not go outside the quadrant
 - If you have TOO MUCH information and you are going outside the quadrant, cut out some information.
- Put ALL SHORTENED footnotes into the Notes Pages below the slide.
 - The Notes Page is the blank space below the slide at the very bottom of PowerPoint. Slowly roll your mouse toward the bottom of PowerPoint.
 - At the scroll bar or just under it, your cursor will turn into a cross with arrows.
 - Left click to “grab” the line and move it up. Then you can type your footnotes.
 - Microsoft instruction on [How to do Notes Pages in PowerPoint](#)
- One quadrant will have a picture of the Individual.
 - Add Alternative Text to the picture.
 - Microsoft instruction on adding [Alternative Text](#) to pictures.

Submit slides as a Microsoft PowerPoint of Mac Keynote presentation only. Any other software use will cost you 10 points for not following instructions.
